## Rubber jaw liner

### Rubber jaw liner with aluminum backing

Order no.:					
GU2G	-				
Firmness DIN53 504 min. [N/mm <sup>2</sup> ]:					
10	-				

• **With aluminum backing plate**

Aluminum backed liners can be screwed securely in place. (Standard 65 +3 Durometer)  
 The rubber liner is also available in hi-temp version, up to 200° C, made from silicone, at the same price.  
 To order add the suffix, "Si".

### Jaw pads (sold in packets of 6)

Order no.					
DG6	DG10	DG16	DG20		
Dimension A [mm]:					
6	10	16	20		
Dimension B [mm]:					
5	5	5	5		

The rubberized surface of the jaw pad increases the holding force and protects the gripper and the part being handled. One set contains six pieces. (Standard 65 +3 Durometer).  
 All four sizes are also available in a silicone version which is heat-resistant up to 200°C. (60 +3 Shore). To order just add "Si" to end of order number.

Version	Material	Color	Heat-resistant	Durometer	Extra charge	Add to part # when ordering
Standard	neoprene	black	-30° to 120° C Oil tolerant	65 ±3	no	-
Heat-resistant	silicone	blue	200° C	60 ±5	no	Si
Food-handling	silicone	white	200° C	60 ±5	yes	L
